Application Record: University of Hildesheim

International Master in Data Analytics, summer 2027 | Applicant: Rodayna Emad Mohamed Abdelkader Abdelmawla | Form: ismll.uni-hildesheim.de/apply/app/new/112 | Status on 31 Oct 2026: filled in, NOT submitted

Still missing before submitting

- Street address and ZIP code are empty (both needed, street address is required). Send me her address.
- Phone, mobile and email are taken from her own CV (+20 1287215632, rodynaemad@gmail.com). Confirm they are right.
- School certificate: name of school, city, country of school, date issued and mark achieved are empty, and the School Certificate PDF is not uploaded. The PDF, country, date and mark are required.
- Graduation project link is empty. Add a link to the full BloomTech report (Google Drive or GitHub), shared so anyone with the link can view it.
- My best estimates, please confirm: start date 01-10-2021, minimum pass 2.0 on the GPA scale and 50% per course.
- Password, confirm password and the data protection checkbox are for Rodayna to fill in herself.
- The form is not saved until it is submitted. Keep the browser tab open, or everything has to be filled again.
- Then review every section and press submit. Deadline for summer 2027: 15 Dec 2026, but they admit on a rolling basis, so the earlier the better.

Personal information

First name	Rodayna
Last name	Emad Mohamed Abdelkader Abdelmawla
Name affix	(empty)
Gender	female
Date of birth	04-12-2002
Place of birth	Alexandria
Country of birth	Egypt
Citizenship	Egypt
Already matriculated at Hildesheim	No (unchecked)
Accepted to this program last semester	No
CV upload	Rodayna_Emad_CV.pdf (uploaded)

Contact information

c/o	(empty)
Street address	(empty, see above)
ZIP code	(empty, see above)
City	Alexandria
Country	Egypt
County	(empty, only for Germany)
Email	rodynaemad@gmail.com
Phone	+20 1287215632
Mobile	+20 1287215632

University entrance certificate

Name of certificate	University Entrance Certificate

Name of school	(empty, see above)
City of school	(empty)
Country of school	(empty, required)
Date issued	(empty, required)
Mark achieved	(empty, required)
School Certificate PDF	(not uploaded, required)

DA advanced track

Apply for the advanced track	No (it needs 30 credits of core ML courses and an ML thesis)

Prior studies #1 (used for weighting)

Country	Egypt
University	Pharos University in Alexandria
College	Faculty of Computer Science and Artificial Intelligence
Degree	Bachelor of Science
Subject	Computer Science
Status	passed
Start date	01-10-2021 (estimate)
End date	28-07-2025
Credits so far / required	140 / 140
Grading scheme	gpa 4-1
Best mark / minimum pass	4.0 / 2.0 (minimum is an estimate)
Mark achieved	3.8836
Mark comment	Excellent with Honors (92.13%)
Vacation terms / internship terms	0 / 0
Completely English program	Yes
Degree certificate / transcript upload	Rodayna_Emad_Degree_Certificate_and_Transcript.pdf (uploaded)

Graduation project

Title	BloomTech: Smart Agriculture System with Plant Disease Detection, IoT Sensors and a Mobile App
Mark	A (Project I: A, Project II: 93)
Credit points	6
Link to full document	(empty, see above)

Graduation project abstract (as entered, in full)

BloomTech is a smart agriculture system for both smart pots and large farm land. It combines computer vision, IoT sensors and a mobile app. The core of the system is a plant disease detection algorithm based on image processing: the user takes a photo of a plant, and the system detects common crop diseases and recommends a cure. It reached over 90% accuracy on more than 1,000 test images. Solar powered IoT sensors monitor the plants in real time without batteries, and their readings drive smart irrigation. A Flutter mobile app with Firebase shows live sensor data, sends notifications and gives plant care recommendations. The app also offers services such as buying land, hiring farmers, renting tools, ordering seeds and tracking crop health. Sensor readings and disease checks are stored in the cloud and shown in real time charts, so farmers can decide faster when to water or treat their crops.

Related courses: grading

Grading scheme (individual courses)	percentage
Best possible / minimum pass	100 / 50 (minimum is an estimate)
Workload unit	Credit hours (from the transcript)

Data analytics courses (mark, credit hours)

Machine Learning	93, 3
Data Science Methodology	94, 3
Introduction to Data Sciences	93, 3
Introduction to Artificial Intelligence	94, 3
Intelligent Systems	91, 3

Math courses (mark, credit hours)

Probability and Statistics	97, 2
Linear Algebra	95, 2
Calculus II	93, 2
Numerical Computations	88, 2
Discrete Structures	87, 3

Programming courses (mark, credit hours)

Programming II	97, 3
Algorithms Design	97, 3
Data Structures and Algorithms	92, 3
System Programming	93, 3
Advanced Programming	90, 3

English proficiency #1

Name of certificate	Medium of Instruction (Graduation Statement, Pharos University in Alexandria)
Date issued	02-08-2026 (date on the Graduation Statement)
Score	(empty, not a test)
Upload	Rodayna_Emad_Graduation_Statement_English.pdf (uploaded)

Additional documents and account

Additional documents upload	Rodayna_Emad_Additional_Documents.pdf (uploaded, 43 pages, 4 MB): motivation letter, certificates, course descriptions
Confirm email	rodynaemad@gmail.com
Password / confirm password	(for Rodayna)
Data protection checkbox	(for Rodayna)

English proficiency comment (as entered, in full)

My whole B.Sc. in Computer Science at Pharos University in Alexandria was taught and assessed in English. The official Graduation Statement from the university confirms: All subjects have been taught and assessed in English.
